

LEADING THE ENGAGEMENT AGENDA

Engagement Australia champions the unique role universities have with society to address contemporary global challenges and trends through teaching, learning, research and partnerships. We do this by:

- Providing and inspiring leadership;
- Developing capacity and future leaders;
- Enabling peer-learning;
- Providing practical tools and tips; and
- Providing a platform for collaboration and knowledge creation.

Engagement Australia supports the wider contextual standard definition of community engagement, previously developed by the US-based Carnegie Foundation for the Advancement of Teaching, which has succeeded in codifying the core characteristics and principles of community engagement. It defines Community engagement as a method of teaching, learning and research that describes interactions between universities and their communities (business, industry, govt, NGOs, and other groups) for the mutually beneficial exchange of knowledge and resources in a context of partnership and reciprocity.
